

GLOBAL MIXED GENDER BASKETBALL

GMGB HEALTH

DIABETES HEALTH SCREENINGS

OUR VISION

Global Mixed Gender Basketball League will create a collaborative relationship within the community to coordinate health screenings, health education and community resources at Global Mixed Gender Basketball League events. Forming a strong partnership for this initiative will create a solid platform that we are confident will place health, sports and entertainment at the forefront to build enthusiasm, trust and understanding within the community about the dangers of living with an undiagnosed disease.

OUR PLAN

We are dedicated to being instrumental in spreading awareness and saving lives. Our plan is to launch a media campaign. We have a team of doctors headed by Dr. Omar Bey that are working tirelessly to educate our community on how to stay healthy and through teaching awareness on different medical issues such as diabetes and other chronic health issues that are plaguing our communities.

The incentive for the community getting screened for diabetes is receiving a FREE ticket to a GMGB game.

OUR COMMITMENT

This is one of the ways the Global Mixed Gender Basketball League vows to give back to the community. There are many of people unknowingly living with this disease and we are committed to addressing this epidemic head on through our initiative. Everyone loves entertainment and ultimately, everyone wants to live a healthy life, which is why we are working diligently to bridge this gap. We are confident that if we all work together, we can combat diabetes and save a life, one person at a time.

Please join us in our movement to creating a healthier community.

ABOUT GMGB

Global Mixed Gender Basketball league is the first original co-ed basketball league with NBA and WNBA players playing together on the same team. representing equality across the board.
